CREATE A CLOUD OBJECT STORAGE SERVICE

The screenshot displays the IBM Cloud console interface for creating a new Cloud Object Storage service. The main heading is "Cloud Object Storage" with a sub-header "Author: IBM • Date of last update: 2022-07-06 7:19 AM • Docs • API docs". Below this, there are two tabs: "Create" (active) and "About". The "Create" tab shows a section titled "Choose an Infrastructure" with two options: "IBM Cloud" (selected) and "Satellite". The "IBM Cloud" option describes creating, managing, and accessing storage in globally available data center locations, emphasizing durability, resiliency, and security. The "Satellite" option describes utilizing infrastructure from on-premise data centers or other cloud providers. To the right, a "Summary" panel shows the service name "Cloud Object Storage", region "Global", plan "Lite", and a "Free" label. Below the summary, there are buttons for "Create" and "Add to estimate". At the bottom, a "Select a pricing plan" section is visible, along with a Windows taskbar showing the date and time as 08:22 on 17-11-2022.

Create About

Choose an Infrastructure

IBM Cloud

Create, manage, and access your storage in globally available data center locations. Public cloud environments are designed for high durability, resiliency and security. IBM-managed infrastructure automatically scales to businesses needs.

Satellite

Utilize infrastructure from on-premise data centers, at other cloud providers, or in edge networks as a Satellite location to IBM Cloud. Deploy, manage and control app workloads with IBM Cloud Object Storage on client-managed infrastructure.

Select a pricing plan

Displayed prices do not include tax. Monthly prices shown are for country or region: India
